Statement on Release of Auction 3 Results

20 March 2009

RGGI, Inc.'s policy is to ensure that all interested parties, including both auction and secondary market participants, receive auction results at the same time, to the fullest extent possible. On March 20th, technical difficulties delayed posting of the results of Auction 3 to the RGGI, Inc. website for almost an hour; meanwhile an e-mail message was widely distributed. As a result, some interested parties received Auction 3 results at different times within that window of time.

Going forward, RGGI, Inc. will post information on the homepage of the RGGI website (www.rggi.org) before distributing it through other channels. RGGI, Inc. will delay the release of auction results through other channels until posting on the website has been completed.
