

ENVIRONMENTAL ENERGY ALLIANCE OF NEW YORK  
PO Box 87  
Kinderhook, NY 12106

November 8, 2017

Andrew McKeon, Executive Director  
RGGI, Inc.  
90 Church Street, 4th Floor  
New York, NY 10007

Comments submitted by email to [info@rggi.org](mailto:info@rggi.org)

Dear Mr. McKeon,

I am writing on behalf of the Environmental Energy Alliance of New York, LLC (the "Alliance"; see generation company members identified below) to provide a clarifying discussion of our position on the Regional Greenhouse Gas Initiative (RGGI) Program Review. Alliance members that own and operate a number of power stations in the state have participated in the RGGI process from its inception, providing perspective as compliance entities to ensure the continued availability of reliable and affordable electricity for customers. While members support a regional, market-based approach to achieving the carbon emissions reductions envisioned by RGGI, there are some differences in opinions as to the appropriate extent and number of programmatic changes currently proposed. As the Alliance members have continued to review and discuss program design elements, our position as an organization has also evolved. As such, we respectfully request stakeholders consider our comments posted on the RGGI website on October 16, 2017 as withdrawn. We will submit additional input following the next New York stakeholder meeting.

Thank you for your time and consideration.

Sincerely,

A handwritten signature in cursive script that reads "Sandra Meier".

Sandra Meier, Ph.D.  
Director, Generation Services
