## **CO<sub>2</sub> Allowances Sold for \$37.65 in 73<sup>rd</sup> RGGI Auction**

*Third Auction of 2026 raises \$1 Billion for Reinvestment*

NEW YORK — The eleven participating states in the Regional Greenhouse Gas Initiative (RGGI), the nation's first market-based regulatory effort to reduce greenhouse gas (GHG) pollution, today announced the results of their 73<sup>rd</sup> auction of carbon dioxide (CO<sub>2</sub>) allowances.

28,537,847 CO<sub>2</sub> allowances were sold at the auction at a clearing price of \$37.65. This includes an initial offering of 27,389,847 allowances and 1,148,000 CCR allowances. The allowance offering included a supply of 5,740,000 allowances from Virginia, which resumed RGGI participation on July 1, 2026. Bids for the CO<sub>2</sub> allowances ranged from \$2.69 to \$190 per allowance. Additional details are available in the [Market Monitor Report for Auction 73](#), which is appended.

### **Additional Auction Information**

The auction generated \$1.08 billion for states to reinvest in strategic programs, including energy efficiency, renewable energy, direct bill assistance, beneficial electrification, and GHG abatement programs.

1,148,000 Cost Containment Reserve (CCR) allowances were available for sale during Auction 73, which were supplied by Virginia. The CCR is a fixed additional supply of allowances that are made available for sale if an auction's interim clearing price exceeds a certain price level (\$18.22 in 2026). All 1,148,000 available CCR allowances were sold in Auction 73. As a result, no CCR allowances will be available for sale at Auction 74, which will be held on December 2, 2026.

8.43 million Emissions Containment Reserve (ECR) allowances were available for withholding. The ECR is a designated quantity of allowances to be withheld if an auction's interim clearing price is below an established trigger level (\$8.41 in 2026). No ECR allowances were withheld in Auction 73.

The participating states continue to monitor allowance supply to ensure the continued success of the RGGI market. Certain states supplemented their allowance offerings at the 73<sup>rd</sup> auction with about 3.5 million set-aside allowances beyond the states' regularly planned offering, and anticipate offering about 2.2 million set-aside allowances at the 74<sup>th</sup> auction in December 2026. In addition, the independent RGGI market monitor developed a special report on the [Supply and Demand for RGGI CO<sub>2</sub> Allowances](#), to help compliance entities access key metrics about the RGGI market as they prepare to satisfy their compliance obligations for the sixth RGGI control period.

## Statements from the RGGI, Inc. Board Chair and Vice Chair

“RGGI’s market-based design results in programs that help consumers lower their energy use and costs, reduce carbon emissions, and strengthen local economies,” **said Elizabeth Mahony, Commissioner of the Massachusetts Department of Energy Resources and Chair of the RGGI, Inc. Board of Directors.** “With Virginia’s renewed participation, RGGI will deliver economic benefits and cleaner air more broadly across the region.”

“RGGI is an important tool that is proven to help states deliver clean, reliable, and affordable electricity across the region,” **said Amanda Lefton, Commissioner of the New York State Department of Environmental Conservation and Vice Chair of the RGGI, Inc. Board of Directors.** “The proceeds generated from this auction will be reinvested by New York and other participating states to deliver meaningful benefits to families, businesses, and our shared environment.”

## About the Regional Greenhouse Gas Initiative (RGGI)

The Eastern states participating in the sixth RGGI control period have implemented the first mandatory market-based regulatory program in the U.S. to reduce greenhouse gas emissions.

RGGI is composed of individual CO<sub>2</sub> budget trading programs in each state, based on each state's independent legal authority. A CO<sub>2</sub> allowance represents a limited authorization to emit one short ton of CO<sub>2</sub>, as issued by a respective state. A regulated power plant must provide CO<sub>2</sub> allowances equal to its emissions for each three-year control period. RGGI's sixth control period began on January 1, 2024 and extends through December 31, 2026. For more information visit [www.rggi.org](http://www.rggi.org).

### **About the Regional Greenhouse Gas Initiative, Inc.**

The Regional Greenhouse Gas Initiative, Inc. (RGGI, Inc.) was created to provide technical and administrative services to the states participating in the Regional Greenhouse Gas Initiative. RGGI, Inc. is a 501(c)(3) nonprofit organization. For more information, visit: [www.rggi.org/rggi-inc/contact](http://www.rggi.org/rggi-inc/contact).

**MARKET MONITOR REPORT  
FOR AUCTION 73**

**Prepared for:**

**RGGI, Inc., on behalf of the RGGI Participating States**

**Prepared By:**

September 11, 2026

---

This report was prepared by Potomac Economics (the contractor) in the course of performing work contracted for and sponsored by RGGI, Inc. on behalf of states participating in RGGI (Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, and Virginia). The opinions expressed in this report do not necessarily reflect those of RGGI, Inc. or any of the states participating in RGGI, and reference to any specific product, service, process, or method does not constitute an implied or expressed recommendation or endorsement of it. Further, RGGI, Inc., the states participating in RGGI, and the contractor make no warranties or representations, expressed or implied, as to the fitness for particular purpose or merchantability of any product, apparatus, or service, or the usefulness, completeness, or accuracy of any processes, methods, or other information contained, described, disclosed, or referred to in this report. RGGI, Inc., the states participating in RGGI, and the contractor make no representation that the use of any product, apparatus, process, method, or other information will not infringe privately owned rights and will assume no liability for any loss, injury, or damage resulting from, or occurring in connection with, the use of information contained, described, disclosed, or referred to in this report.

The Regional Greenhouse Gas Initiative (RGGI) is the first mandatory market-based regulatory initiative in the U.S. to reduce greenhouse gas emissions. RGGI is a cooperative effort of New England and Mid-Atlantic states to reduce emissions of carbon dioxide (CO<sub>2</sub>) from the power sector.

RGGI, Inc. is a non-profit corporation created to provide technical and administrative services to the states participating in the Regional Greenhouse Gas Initiative.

## **MARKET MONITOR REPORT FOR AUCTION 73**

As the Market Monitor for the RGGI CO<sub>2</sub> allowance market, Potomac Economics monitors the conduct of market participants in the auctions and in the secondary market to identify indications of market manipulation or collusion. We also review the administration of the allowance auctions by Enel X. This report summarizes our findings regarding RGGI Auction 73, which was held on September 9, 2026.

We observed the auction as it occurred and have completed our review and analysis of its results. Based on our review of bids in the auction, we find no material evidence of collusion or manipulation by bidders.

Sixty-five bidders submitted bids in the auction for CO<sub>2</sub> allowances. Bids were submitted to purchase 2.6 times the initial offering of approximately 27.4 million allowances. Although Cost Containment Reserve (“CCR”) allowances for the ten states participating in RGGI at the beginning of 2026 were fully released in Auction 71, Virginia’s CCR allowances for 2026 were made available for the first time in Auction 73. The quantity for which bids were submitted above the CCR Trigger Price of \$18.22 per ton exceeded the initial offering, so Virginia’s CCR allowances were fully released in Auction 73. Compliance-Oriented Entities purchased 49 percent of the allowances in this auction. Ultimately, there was no indication of barriers to participation in the auction.

Based on our review of the administration of the market, we found that:

- The auction was administered in a fair and transparent manner in accordance with the noticed auction procedures and limitations and notifications to bidders.
- The auction results were consistent with the market rules and the bids received.
- Sensitive information was treated appropriately by the auction administrator.
- Although the auction interface was down intermittently during the event, there is no indication that participants were ultimately unable to submit bids.

In summary, the results of our monitoring of RGGI Auction 73 raise no material concerns regarding the auction process, barriers to participation in the auction, or the competitiveness of the auction results. The appendix provides additional information about the market for RGGI CO<sub>2</sub> allowances and outcomes of the auction.

## APPENDIX

### A. DISPERSION OF PROJECTED DEMAND

*The wide dispersion of projected demand for RGGI allowances across compliance entities facilitates the competitive performance of the auction.*

The demand for CO<sub>2</sub> allowances is based on the requirement for each compliance entity in the RGGI footprint to obtain one CO<sub>2</sub> allowance for each short ton of CO<sub>2</sub> that it emits from the sale of electricity. The following figure shows the relative shares of projected demand for RGGI allowances by compliance entity in the sixth control period, including entities seeking allowances for emissions sources in Virginia. The largest compliance entity represents 17 percent of the total projected demand for allowances. Nearly half of the projected demand is composed of entities that each account for less than 5 percent of the total demand. Participation by a large number of entities facilitates the competitive performance of the auction.

**Figure 1: Projected Demand for RGGI Allowances  
Shares by Compliance Entity**

## B. SUMMARY OF PURCHASES OF ALLOWANCES IN AUCTION 73

*Awards were distributed across 58 bidders with 30 bidders purchasing 200,000 tons or more of which eight purchased one million tons or more.*

This report summarizes participation in Auction 73. Participation in the RGGI market involves many different firms with various interests in RGGI allowances. Some participate to satisfy compliance obligations, others have investment interests, and still others participate for both purposes. To more effectively track the activity of different participants, we use several classifications for participant firms. Figure 2 summarizes the relationship between these classifications.

**Figure 2: Classifications of Participant Firms in the RGGI Marketplace**

- *Compliance-Oriented Entities* are compliance entities that appear to acquire and hold allowances primarily to satisfy their compliance obligations.
- *Investors with Compliance Obligations* are firms that have compliance obligations but which hold a number of allowances that exceeds their estimated compliance obligations by a margin suggesting they also buy for re-sale or some other investment purpose. These firms often transfer significant quantities of allowances to unaffiliated firms.<sup>1</sup>

<sup>1</sup> The assessment of whether a compliance entity holds a number of allowances that exceeds its compliance obligations by a margin that suggests they are also buying for re-sale or some other investment purpose is based on: (a) the entity's forecasted share of the total compliance obligations in the RGGI footprint including Virginia through the seventh control period, (b) the total number of allowances in circulation, and (c) consideration of the pattern of the entity's allowance transfers to unaffiliated firms versus affiliated firms. Since the designation of a compliance entity as an investor is based on a review of its transactions and holdings, the designation of a

- *Investors without Compliance Obligations* are firms without any compliance obligations.

These three categories form the basis for two overlapping groups.

- *Compliance Entities* – All firms with compliance obligations and their affiliates.<sup>2</sup> Combines the first and second of the above categories.
- *Investors* – All firms which are assessed to be purchasing for investment rather than compliance purposes. Combines the second and third of the above categories.

In Auction 73, Compliance Entities purchased 53 percent of the allowances sold. In the first 73 RGGI auctions, Compliance Entities purchased 71 percent of the allowances sold. In Auction 73, Compliance-Oriented Entities purchased 49 percent of the allowances sold.

After settlement of allowances sold in Auction 73:

- Seventy-one percent of the allowances in circulation will be held by Compliance-Oriented Entities.
- Seventy-nine percent of the allowances in circulation are believed to be held for compliance purposes. The number of allowances that are believed to be held for compliance purposes includes 100 percent of the allowances held by Compliance-Oriented Entities and a portion of allowances held by Investors with Compliance Obligations. This includes some allowances that likely will not be used for compliance until the seventh Control Period.

The following table shows the quantity of allowances purchased by each bidder. The identity of each bidder is masked, and the bidders are ranked according to the amount of allowances awarded, from largest to smallest.

---

particular firm may change over time as more information becomes available.

<sup>2</sup> Affiliates are firms that: (i) have a parent-subsidiary relationship with a compliance entity, (ii) are subsidiaries of a parent company that has a large interest in a compliance entity, (iii) have substantial control over the operation of a budget source and/or responsibility for acquiring RGGI allowances to satisfy its compliance obligations.

**Table 1: Quantity of Allowances Awarded by Bidder**

| <b>Bidder</b> | <b>Number of<br/>Allowances Awarded</b> | <b>Bidder</b> | <b>Number of<br/>Allowances Awarded</b> |
|---------------|-----------------------------------------|---------------|-----------------------------------------|
| Bidder 1      | 4,544,000                               | Bidder 30     | 225,000                                 |
| Bidder 2      | 3,170,000                               | Bidder 31     | 184,000                                 |
| Bidder 3      | 2,674,000                               | Bidder 32     | 150,000                                 |
| Bidder 4      | 2,010,000                               | Bidder 33     | 149,000                                 |
| Bidder 5      | 1,726,000                               | Bidder 34     | 130,000                                 |
| Bidder 6      | 1,105,000                               | Bidder 35     | 125,000                                 |
| Bidder 7      | 1,000,000                               | Bidder 36     | 125,000                                 |
| Bidder 8      | 1,000,000                               | Bidder 37     | 125,000                                 |
| Bidder 9      | 927,000                                 | Bidder 38     | 70,000                                  |
| Bidder 10     | 710,000                                 | Bidder 39     | 67,000                                  |
| Bidder 11     | 600,000                                 | Bidder 40     | 55,000                                  |
| Bidder 12     | 556,847                                 | Bidder 41     | 50,000                                  |
| Bidder 13     | 550,000                                 | Bidder 42     | 50,000                                  |
| Bidder 14     | 545,000                                 | Bidder 43     | 50,000                                  |
| Bidder 15     | 525,000                                 | Bidder 44     | 45,000                                  |
| Bidder 16     | 500,000                                 | Bidder 45     | 44,000                                  |

| Bidder 24     | 341,000                                 | Bidder 53     | 15,000                                  |
| Bidder 25     | 331,000                                 | Bidder 54     | 15,000                                  |
| Bidder 26     | 263,000                                 | Bidder 55     | 11,000                                  |
| Bidder 27     | 250,000                                 | Bidder 56     | 8,000                                   |
| Bidder 28     | 239,000                                 | Bidder 57     | 6,000                                   |
| Bidder 29     | 236,000                                 | Bidder 58     | 5,000                                   |

### C. DISPERSION OF BIDS IN AUCTION 73

*Bids were submitted by 35 Compliance-Oriented Entities and 30 Investors. In our review of the bids and the qualification process, we found no material evidence of anti-competitive conduct or inappropriate barriers to participation.*

The following figure summarizes the quantity of allowances for which bids were submitted by each bidder. Ten Compliance-Oriented Entities and twelve Investors submitted bids for a large quantity of allowances (i.e., at least 1 million tons). Overall, Compliance-Oriented Entities accounted for 51 percent of the quantity of allowances for which bids were submitted. The quantity of allowances for which bids were submitted was 2.6 times the Initial Offering. In the previous auction, the quantity of allowances for which bids were submitted was 2.4 times the Initial Offering.

The bid quantities were widely distributed among the 65 bidders. The concentration of bids, using the Herfindahl-Hirschman Index (“HHI”), was relatively low at 412. The HHI is a standard measure of concentration calculated by squaring each entity’s percent share and then summing the squares across all entities (i.e., the index ranges from 0 to 10,000).

#### D. SUMMARY OF BID PRICES IN AUCTION 73

*Bids were submitted across a wide range of prices in the auction and the clearing price of \$37.65 was relatively consistent with average bid prices submitted.*

The following table reports several statistics regarding the bid prices for bids submitted in Auction 73. The median and mean bid prices are weighted by the quantity of each bid.

|                    |          |
|--------------------|----------|
| <b>Bid Prices:</b> |          |
| Minimum            | \$2.69   |
| Maximum            | \$190.00 |
| Average (Median)   | \$35.50  |
| Average (Mean)     | \$39.53  |
| Clearing Price:    | \$37.65  |

## **E. NAMES OF POTENTIAL BIDDERS IN AUCTION 73**

In accordance with Sections 2.8 and 3 of the Auction Notice for CO<sub>2</sub> Allowance Auction 73, the Participating States are releasing the names of Potential Bidders in Auction 73. The states defined potential bidders as: “Each Applicant that has been qualified and submitted a complete *Intent to Bid*.” The list of 76 Potential Bidders is as follows:
