Dept. of Environmental Services, NH CO₂ Budget Trading Program, Contract for Program Services

EXPLANATION

The reason for this contract with RGGI, Inc. is to continue the CO₂ Budget Trading Program in accordance with RSA 125-O:20-29. This is a Sole Source contract because there is no other entity that can provide the necessary services to the State of New Hampshire. RSA 125-O enables NHDES to enter into an "arrangement with the representatives of other states, including the formation of a for-profit or non-profit corporation" to assist in the administration of RGGI. RGGI is a non-profit corporation created to provide technical and administrative services to the CO₂ budget trading programs of the participating states. Because RGGI was formed to serve no other purpose than to administer the RGGI program on behalf of the participating states, it does not have any other source of operating revenues to develop.
and conduct all of the necessary administrative functions needed by New Hampshire to meet the requirements of RSA 125-O:20-29. The contract with RGGI is for ongoing administration of the program through 2024.

Pursuant to state law, RSA 125-O:20-29, NHDES is required to sell a majority of New Hampshire’s allowances in regional auctions. Over the first 52 auctions conducted since September 2008\(^1\), New Hampshire has generated total revenues of $189,369,337 from the sale of 50,406,218 allowances. Most of the auction proceeds are rebated to ratepayers. A portion of the proceeds, excluding the amount used for administration, are placed in the Energy Efficiency Fund and then allocated to the utility core programs. As provided by the statute, a portion of the fund monies are also used to pay for a regional organization to assist in the administration of RGGI. Each state has committed to paying its state’s portion of RGGI, Inc.’s fees from the revenues generated from the sale of allowances. As indicated in the original contract, New Hampshire will not be responsible for any RGGI costs if adequate revenues are not generated by the sale of allowances.

This contract has been reviewed and approved by the Department of Information Technology. This contract has been approved by the Office of the Attorney General as to form, execution and content.

We respectfully request your approval.

3.1 Notwithstanding any provision of this Agreement to the contrary, and subject to the approval of the Governor and Executive Council of the State of New Hampshire, if applicable, this Agreement, and all obligations of the parties hereunder, shall become effective on the date the Governor and Executive Council approve this Agreement as indicated in block 1.17, unless no such approval is required, in which case the Agreement shall become effective on the date the Agreement is signed by the State Agency as shown in block 1.13 ("Effective Date").

3.2 If the Contractor commences the Services prior to the Effective Date, all Services performed by the Contractor prior to the Effective Date shall be performed at the sole risk of the Contractor, and in the event that this Agreement does not become effective, the State shall have no liability to the Contractor, including without limitation, any obligation to pay the Contractor for any costs incurred or Services performed. Contractor must complete all Services by the Completion Date specified in block 1.7.

4. CONDITIONAL NATURE OF AGREEMENT.
Notwithstanding any provision of this Agreement to the contrary, all obligations of the State hereunder, including, without limitation, the continuance of payments hereunder, are contingent upon the availability and continued appropriation of funds affected by any state or federal legislative or executive action that reduces, eliminates or otherwise modifies the appropriation or availability of funding for this Agreement and the Scope for Services provided in EXHIBIT B, in whole or in part. In no event shall the State be liable for any payments hereunder in excess of such available appropriated funds. In the event of a reduction or termination of appropriated funds, the State shall have the right to withhold payment until such funds become available, if ever, and shall have the right to reduce or terminate the Services under this Agreement immediately upon giving the Contractor notice of such reduction or termination. The State shall not be required to transfer funds from any other account or source to the Account identified in block 1.6 in the event funds in that Account are reduced or unavailable.

5. CONTRACT PRICE/PRICE LIMITATION/PAYMENT.
5.1 The contract price, method of payment, and terms of payment are identified and more particularly described in EXHIBIT C which is incorporated herein by reference.
5.2 The payment by the State of the contract price shall be the only and the complete reimbursement to the Contractor for all expenses, of whatever nature incurred by the Contractor in the performance hereof, and shall be the only and the complete compensation to the Contractor for the Services. The State shall have no liability to the Contractor other than the contract price.

5.3 The State reserves the right to offset from any amounts otherwise payable to the Contractor under this Agreement those liquidated amounts required or permitted by N.H. RSA 80:7 through RSA 80:7-c or any other provision of law.

5.4 Notwithstanding any provision in this Agreement to the contrary, and notwithstanding unexpected circumstances, in no event shall the total of all payments authorized, or actually made hereunder, exceed the Price Limitation set forth in block 1.8.

6. COMPLIANCE BY CONTRACTOR WITH LAWS AND REGULATIONS/EQUAL EMPLOYMENT OPPORTUNITY.
6.1 In connection with the performance of the Services, the Contractor shall comply with all applicable statutes, laws, regulations, and orders of federal, state, county or municipal authorities which impose any obligation or duty upon the Contractor, including, but not limited to, civil rights and equal employment opportunity laws. In addition, if this Agreement is funded in any part by monies of the United States, the Contractor shall comply with all federal executive orders, rules, regulations and statutes, and with any rules, regulations and guidelines as the State or the United States issue to implement these regulations. The Contractor shall also comply with all applicable intellectual property laws.

8.1.2 failure to submit any report required hereunder; and/or
8.1.3 failure to perform any other covenant, term or condition of this Agreement.
8.2 Upon the occurrence of any Event of Default, the State may take any one, or more, or all, of the following actions:
8.2.1 give the Contractor a written notice specifying the Event of Default and requiring it to be remedied within, in the absence of a greater or lesser specification of time, thirty (30) days from the date of the notice; and if the Event of Default is not timely cured, terminate this Agreement, effective two (2) days after giving the Contractor notice of termination;
8.2.2 give the Contractor a written notice specifying the Event of Default and suspending all payments to be made under this Agreement and ordering that the portion of the contract price which would otherwise accrue to the Contractor during the period from the date of such notice until such time as the State determines that the Contractor has cured the Event of Default shall never be paid to the Contractor;
8.2.3 give the Contractor a written notice specifying the Event of Default and set off against any other obligations the State may owe to the Contractor any damages the State suffers by reason of any Event of Default; and/or

8.3 No failure by the State to enforce any provisions hereof after any Event of Default shall be deemed a waiver of its rights with regard to that Event of Default, or any subsequent Event of Default. No express failure to enforce any Event of Default shall be deemed a waiver of the right of the State to enforce each and all of the provisions hereof upon any further or other Event of Default on the part of the Contractor.

9. TERMINATION.
9.1 Notwithstanding paragraph 8, the State may, at its sole discretion, terminate the Agreement for any reason, in whole or in part, by thirty (30) days written notice to the Contractor that the State is exercising its option to terminate the Agreement.

out of (or which may be claimed to arise out of) the acts or omission of the Contractor, or subcontractors, including but not limited to the negligence, reckless or intentional conduct. The State shall not be liable for any costs incurred by the Contractor arising under this paragraph 13. requested, deliverables, where deemed appropriate in consultation with the Department, shall be
presented to the Department in draft form for review and ultimate approval by the Department.

I-A. Program and Systems Implementation

RGGI, Inc. shall implement an overall program implementation plan. To the extent
necessary, any subcontractors engaged by RGGI, Inc. shall have strong working knowledge
of 40 CFR Part 75 and U.S. EPA's data system to ensure that the program implementation
strategy takes into account the timeliness, data processing requirements, and data
availability limitations associated with U.S. EPA's emissions reporting, tracking, analysis,
and data storage procedures.

Tracking System Requirements

RGGI, Inc., in consultation with the Department, shall implement the Tracking System to
support the emissions and allowance tracking and compliance aspects, as well as the offsets
component, of the New Hampshire CO₂ Budget Trading Program. The Tracking System
shall also be able to track allowance prices, as reported, applicable price triggers, and

EXHIBIT B  
SCOPE OF SERVICES

Offsets Module

RGGI, Inc. shall provide a Tracking System software platform that includes an offsets module to track offset project status, including project submittals, approvals, and supporting documentation, and maintain CO2 allowances awarded to approved offset projects. RGGI, Inc. shall coordinate with the appropriate representatives of the Department to support administration of the offsets component of the New Hampshire CO2 Budget Trading Program to ensure that the offsets applications and submittal materials used by the Department align with the capabilities and needs of the Tracking System.

The offsets module of the Tracking System shall have the functionality to track and monitor offsets project status details, such as the status of consistency applications and monitoring and verification submittals, as well as provide for public access to project documentation supporting such applications and submittals.

Tracking System Reports

The Tracking System software provided by RGGI, Inc. shall include a reports module to provide system users with reports of system data. These shall include, but may not be limited to: account reports, source reports, CO2 emissions reports, offsets reports, and source compliance summary reports.

I-B. Program Operation

In the program operation phase of the project, RGGI, Inc. shall provide ongoing operational support for the Tracking System, including the tasks outlined below.

Allowance Program Management

Consistent with the implementation plan developed during the design and system development phase of the project, RGGI, Inc. shall provide implementation support to the Department for all program activities relating to source management, allowance allocations to compliance and general accounts, and trades for both general and compliance accounts. This shall include the activity necessary to support the assignment of allowances to appropriate accounts following the successful completion and Department approval of all allowance auctions, as well as the population of user accounts after Department award of each offset allowance.
Emissions Data Management and Analysis

Consistent with the implementation plan developed during the design and system development phase of the project, RGGI, Inc. shall perform all data management and quality assurance tasks necessary to ensure the availability of annual CO₂ emissions data from all affected units. RGGI, Inc. shall prepare and send communications to the account representatives for affected sources relating to the interim, draft, and final emissions values. RGGI, Inc. shall work with the Department to identify and resolve any issues relating to the submission of emissions data, and the accuracy and completeness of the data. To the extent requested by the Department, RGGI, Inc. shall contact industry representatives directly to resolve any outstanding issues. RGGI, Inc. shall document all issues, their resolution, and all contacts with industry representatives.

Allowance Reconciliation (True-up)

RGGI, Inc. shall assist the Department with the compliance assessment for the New Hampshire CO₂ Budget Trading Program. The Tracking System shall support data entry of compliance certifications required by the program and the identification of allowances to be deducted during the compliance process. This assessment shall factor in appropriate offsets limits as a function of a source’s reported emissions. These limits will be adjusted appropriately to address the price trigger mechanisms in the participating states’ regulations. RGGI, Inc. shall prepare draft and final compliance reports and will provide information to the Department’s staff contacts regarding possible non-compliance.

User Technical Support

RGGI, Inc. shall provide technical support to industry, the Department, and public users of the Tracking System. RGGI, Inc. shall record all technical support requests, inquiries, or other occurrences in a log that identifies the nature of the request or events, requestor, respondent, response provided, date(s) and time(s) of response, and amount of chargeable time expended on the request and response. Records shall be provided to the Department’s Project Manager on a periodic basis, or on demand, as requested.

As necessary, RGGI, Inc. shall provide assessments and recommendations relating to performance of the system based on the technical support levels and user feedback. RGGI, Inc. shall not be responsible for interpretation of the Department’s regulations, and/or interpretation of actions taken by the Department in enforcement of those regulations.
II. Allowance Auction Platform

RGGI, Inc. shall implement a platform for the auctioning of allowances. RGGI, Inc. shall provide auction services in three general areas: pre-auction, auction implementation, and post-auction. In any area where services are requested, all deliverables will be presented the Department in draft form for review and ultimate approval by the Department.

II-A. Pre-auction Services

Consultation

RGGI, Inc. may be asked to provide general consultation to the Department on auction implementation. This may include consultation on auction activity procedures and auction closing procedures.

Auction Notices

RGGI, Inc., in consultation with the Department, shall create documents and associated information necessary to inform auction participants about details of each auction. Each notice of auction shall provide a specific description of the auction format that will be used, the quantities of allowances to be auctioned, and all applicable participation requirements.
